It's Date Masamune!!

Wikipedia: Date Masamune was a regional strongman of Japan's Azuch=Momoyama period through early Edo period.

Is she a history buff...?

I MUST BE FULL OF HISTORY...?!

Let's party!

Oimoi!

Oimoi!

...I lost my breath...

...I lost my breath...

Well, if I'm *that* popular...

But hey, you're quite good at Japanese, aren't you?

Did you learn it?

Here, you can have this too.

Yes!

Ma-manga, huh?!

through Japon's anime and *manga*!

I studied a lot.

Japon means Japan in French

She's an otaku

Actually, I've asked him to buy some Shit time too! Ufufu...

Sound...

Whenever my big brother goes to Tokyo for work, I always ask him to buy manga for me!

Japanese manga is really wonderful!

This... She isn't a history buff.

Sounds great...

to be able to draw those kinds of manga!

I too wish, eventually.

You do? Eh?

Of course, our country has bandes desinées as well.

But,

Japon manga!

what I want to draw is...

They are a different work of art compared to American comics and manga.

Bandes dessinees are essentially French comics

Did you draw these?

か！！あああ

i'm an amateur, but...

Yes!

That's amazing, don't you think, Megumi-san?

Although she's French, she draws manga...

For me, I want to draw a popular love comedy which makes your chest go "kyun"

Of Tsumire-san, who lives in Tokyo!

...world line? ...Which line's story is this...?

wha

Well, particle, to phrase a world line... L the sequence of — events corresponding to the history of an object

Within Japanese cuisine, I love oden!

A love comedy!?

Why is the heroine and hero named Tsumire and Chikuwa!?

Tsumire means "fish balls"; Chikuwa means "fish paste cake"

You saw right through it!

As if I could of you, Meameru!

I wonder if this "Oikawa" actually looks like a high school student...

The high school student in and a temporary staff member arc?

He's actually a shogun of the Edo period!

A wild shogun!?

... or a samurai...

This theme crossed national borders and is admired here in high demand!

A white horse and noble prince...

WELL ACTUALLY A HORSE IS...

it looks different in the eyes of actual Japanese people, huh?

...In the end,

You could say it's riddled with random stuff.

It kinda seems off...

That I should learn more about high school students from Japan.

My brother mentioned it as well.

But,

I thought "Chikuwa-kun" existed.

when I saw you for the first time.
